**SYMPOSIUM ON
SUSTAINABILITY IN HEALTH CARE**

2018 SESSION AGENDA

- 8:00 AM - 10:30 AM **NFPA WORKSHOP**
Room 201 **NFPA Codes and Standards in the Healthcare Environment Workshop**
Providing an overview of NFPA 99, 110, 70, and 101 as they relate to the healthcare environment. Review the requirements of the codes and learn how to apply them in the healthcare setting.
2.5 AIA LU/HSWs, PDHs, GBCI CEs
- 11:30 AM - 1:00 PM **KEYNOTE LUNCH PRESENTATION**
Ballroom A **Can we use Architecture and Design to Create Healthy Spaces that Promote Patient Health and Wellbeing?**
Applying the physiological and psychological relationship to healthcare planning, design, and architecture.
1.5 ACE Self Reported Qualified Hours
1.5 AIA LU/HSWs, PDHs, GBCI CEs
- 2:00 PM - 3:30 PM **EDUCATION TRACKS (2 CONCURRENT SESSIONS)**
Room 201 **Session A - Joint Commission Resources Program**
Most recent changes to the 2012 editions of the Life Safety Code (NFPA 101), the Healthcare Facilities Code (NFPA 99) and the Top Ten most cited standards.
1.5 AIA LU/HSWs, PDHs, GBCI CEs
- Room 203 - 204 **Session B - Reinventing Customer Service in Healthcare: Lessons Learned from the Best**
Consumer-driven services and efficiency are accelerating changes in the way organizations operate and compete.
1.5 ACE F2F CEs, 1.5 AIA LU/HSW, PDHs, GBCI CEs
- 3:45 PM - 5:15 PM **EDUCATION TRACKS (2 CONCURRENT SESSIONS)**
Room 201 **Session A - Critical Power needs to meet NFPA / Joint Commission Requirements in the Healthcare Environment**
Discussing Emergency Standby Systems and related Mechanical - Electrical Systems, Fire Pumps and discussions on Code Compliance, Installation and Maintenance.
1.5 AIA LU/HSWs, PDHs, GBCI CEs
- Room 203 - 204 **Session B - Telemedicine in Healthcare Delivery System**
In its increasingly popularity, and the innovative benefits amid the implementation of the Affordable Care Act.
1.5 ACE F2F CEs, 1.5 AIA LU/HSWs, PDHs, GBCI CEs
- 5:00 PM - 6:00 PM **NETWORKING HAPPY HOUR**
Cocktails and hors d'oeuvres will be provided

FUTURE OF HEALTHCARE

Welcome to the 8th Annual Symposium on Sustainability in Health Care hosted by Heapy Engineering. Bringing together influential thinkers and experienced program administrators to discuss the innovations and challenges — be they technological, ethical, or controversial — facing today's ever-evolving healthcare sector.

Thank you for attending the 8th annual Symposium on Sustainability in Health Care. We hope what you learn at today's symposium will assist you in integrating sustainable strategies into your everyday approach to healthcare.

— Heapy Engineering

Heapy Engineering, nationally recognized for its leadership in sustainable design, provides MEP Systems Design, Energy, Commissioning, Technology, Planning and SMART Technologies Integration Services primarily for Healthcare, Mission Critical, Higher Education, Government and Cultural markets.

Recognized as one of BD+C Giants Top 15 Healthcare Engineering Firms, Heapy Engineering provides solutions for approximately \$400 million annually in Healthcare projects. Most recently, The Christ Hospital Medical Center at Liberty Township and the Dayton Children's Hospital New Patient Care Tower.

Heapy Engineering is involved in over 400 LEED projects with over 50% of certified projects attaining GOLD or PLATINUM certification.

Conference Image Release:

Attendance at, or participation in, any workshop or conference organized by the Sustainability Conference Group (SCG) / Heapy Engineering constitutes consent to the use and distribution by SCG/ Heapy Engineering of the attendee's image or voice for informational, publicity, promotional, and/or reporting purposes in print or electronic communications media. Video recording by participants and other attendees during any portion of the workshop or conference is not allowed without special prior written permission of SCG/Heapy Engineering. Photographs of copyrighted PowerPoint or other slides are for personal use only and are not to be reproduced or distributed. Photographs of any images labeled as confidential and/or proprietary is forbidden.

8:00 AM - 10:30 AM

NFPA WORKSHOP

2.5 AIA LU/HSWs, PDHs, GBCI CEs

ROOM 201

Welcoming Remarks

JOHN BLACK, PE, CTS, LEED AP BD+C

Senior Principal, Heapy Engineering

Introduction of Panelists

VIC SPANG

Director of Sales, Buckeye Power Sales

NFPA CODES AND STANDARDS IN THE HEALTHCARE ENVIRONMENT WORKSHOP

This session will provide an overview of NFPA 99, 110, 70, and 101 as they relate to the healthcare environment. Attendees will review the requirements of the codes and learn how to apply them in the healthcare setting. The presenter will discuss the requirements and challenges associated with the codes and examine how they work together to provide a higher level of safety and reliability in healthcare.

DAVE DAGENAIS, BS, CHSP, CHFM, FASHE

Director of Plant Operations and Security

Wentworth Douglass Hospital, Dover, NH

Dave is a Certified Healthcare Facility Manager, a Certified Healthcare Safety Professional and a SASHE with the American Society of Healthcare Engineering. Dave has been in the healthcare industry and code development process for over 18 years. He currently sits on the following committees: NFPA Healthcare Section Executive Board, NFPA 730 Technical Committee Guide for Premises Security, NFPA 731 Technical Committee Standard for the Installation of Electronic Premises Security Systems, NFPA Healthcare Section Codes and Standards Review Committee, NFPA 99 Technical Collating Committee, NFPA 99 Technical Committee on Electrical Systems, NFPA 99 Technical Committee on Emergency Management and Security and he has been appointed to the NFPA Healthcare Interpretation Task Force.

11:30 AM - 1:00 PM

KEYNOTE LUNCH PRESENTATION

1.5 AIA LU/HSWs, PDHs, GBCI CEs

1.5 ACEH SELF REPORTED QUALIFIED HOURS

BALLROOM A

Welcoming Remarks

JOE FERDELMAN, PE, HFDP, LEED AP BD+C

Healthcare Practice Leader, Heapy Engineering

Introduction of Keynote Speaker

MICHAEL BERNING, PE, CEM, LEED FELLOW

Sustainability Director, Heapy Engineering

Chair, USGBC Ohio

CAN WE USE ARCHITECTURE AND DESIGN TO CREATE HEALTHY SPACES THAT PROMOTE PATIENT HEALTH AND WELLBEING?

New understanding of our physiological and psychological relationship with our environment can be applied to healthcare planning, design, and architecture to improve the patient experience and improve healthcare outcomes. Bill will explore research that reveals ways planning and design can promote better health.

BILL BROWNING, MSRED MIT, HON. AIA, LEED AP

Terrapin Bright Green

Bill is one of the green building and real estate industry's foremost thinkers and strategists, and an advocate for sustainable design solutions at all levels of business, government, and civil society. Early in his career, Bill built Buckminster Fuller's last experimental structure. In 2006, he co-founded Terrapin Bright Green, an environmental strategies research and consulting firm. He is a founding board member of the USGBC. His expertise has been sought out by organizations as diverse as Fortune 500 companies, leading universities, non-profit organizations, the U.S. military, and foreign governments. In addition to consulting, Bill writes and lectures widely on sustainable design and building practices.

2:00 PM - 3:30 PM EDUCATION SESSION A

1.5 AIA LU/HSWs, PDHs, GBCI CEs

ROOM 201

Introductions
MATT GRAHAM, PE, LEED AP BD+C
Principal, Project Manager, Heapy Engineering

Education Track Sponsor
VIC SPANG
Director of Sales, Buckeye Power Sales

JOINT COMMISSION RESOURCE PROGRAM

The adoption of the 2012 editions of the Life Safety Code (NFPA 101) and the Healthcare Facilities Code (NFPA 99) have brought significant changes to the healthcare environment. The Joint Commission has revised and added standards in the Life Safety and Environment of Care chapters to align with the changes. This presentation will go over some of the more recent changes and provide information related to success during survey. We will also review the Top Ten most cited standards and discuss why they continue to be troublesome.

RICK ELDER, BS, CHFM, CHC

Joint Commission Resources

Rick provides healthcare engineering expertise for organizations needing assistance in compliance with Joint Commission Standards. Mr. Elder also has extensive experience with the International Building Code, NFPA codes, FGI Guidelines, and other regulations related to the design and construction of hospitals and healthcare facilities. He has extensive knowledge of life cycle maintenance programs, system design, and operations for critical systems.

REINVENTING CUSTOMER SERVICE IN HEALTHCARE: LESSONS LEARNED FROM THE BEST

Consumer-driven services in business and the need for efficiency are accelerating changes in the way organizations operate and compete.

KENT ANDERSON, FACHE, MBA/MHA

President and CEO, Ohio's Hospice

Kent leads a team intensely focused on celebrating life and helping people live their final days on their own terms, with dignity and quality. Our care is not prescriptive. We rely on our patients to tell us what they want and need-and then work every day to make that happen.

MIKE MONJOT

Director Patient Care in Ambulatory, Dayton Children's Hospital

Mike has extensive experience in ambulatory healthcare clinical operations, working in partnership with physicians and hospital administration to guide significant growth and improved patient experience over the last 15 years.

KELLY RABAH, FACHE, MSW, CPHQ, SSGB

Director of Patient Safety Quality Improvement for GME Wright State University

Kelly is responsible for creating and implementing a program directing WSU resident and fellow initiatives in education, quality and patient safety at Premier Health Hospitals, and Wright State University Offices of Faculty and Clinical Affairs.

**CRITICAL POWER NEEDS TO MEET NFPA /
JOINT COMMISSION REQUIREMENTS IN THE
HEALTHCARE ENVIRONMENT**

Presentation will discuss Emergency Standby Systems and related Mechanical and Electrical Systems, including Fire Pumps. Presentation will also include discussions regarding Code Compliance, and Installation and Maintenance.

JEFF SCHONEMAN

Kohler Power Systems

Jeff is responsible for working with the consulting engineering community on large and complex projects being designed in the central region for construction anywhere in North America. Prior to his current role, he was an Area Sales Manager for both North America and Latin America, as well as a Marketing Analyst and Field Service Technician. Schoneman joined Kohler in 1977 with training in both electronics and business.

TELEMEDICINE IN HEALTHCARE DELIVERY SYSTEM

Telemedicine has become increasingly popular throughout the years. Its innovative benefits are vital interest amid the implementation of the Affordable Care Act.

PAULA GUY

President and CEO, Salus Health

Paula was the driving force behind the formation of and the successes of Georgia Partnership for Telehealth, Alabama Partnership for Telehealth, and Florida Partnership for Telehealth which were 501 (3) C's.

LISA HENDERSON, MHSA

Dayton Children's Hospital

Lisa has extensive experience in business growth, strategic planning, operations and physician relations. Lisa serves as the Executive Director for Dayton Children's Health Partners, and also leads the physician relations program and network development for Dayton Children's Hospital.

TRACY LUOMA, MS, M.DIV, LPCC-S, NCC, CCMHC, ACS

Program Specialist, VA Medical Center

Tracy is responsible for MH Initiatives, Ambulatory Programs, Mental Health Service at the Dayton VA Medical Center, to include the TeleMental Health (TMH) and Mental Health Treatment Coordinator (MHTC) initiatives which include, plan, monitor and evaluate programs and service delivery effectiveness in these programs.

Life Is On

100% of the carbon emissions from the 2018 Symposium on Sustainability in Health Care have been mitigated with renewable energy credits and carbon offsets donated by Schneider Electric. These offsets address the electricity used at the event and the carbon emissions from attendees' travel.

By offsetting this event, 17,227 pounds of CO₂ emissions are avoided, which is equivalent to taking two passenger cars off the road for a year or planting 200 tree seedlings and growing them for 10 years.
