## TRACK 1

### Building the Hospital of Tomorrow: Rehabilitate, Renovate or Replace

#### 1.5 ACHE Face to Face, AIA LU/HSWs, GBCI LEED Specific (BD+C, ID+C, O+M) CEs, PDHs

After years of relative dormancy, the healthcare construction boom continues throughout the U.S., impacting both small community hospitals and large urban health systems alike.

The most common reasons for the renovations, expansions, and replacements include aging facilities, population growth, market demand, and the need to improve operational efficiencies. In this session, learn how to take a strategic and proactive approach to capital infrastructure investments that maximizes ROI and impact.
